

Portsea Sound

We are excited to be making a community sound piece this summer in Portsea and everyone is invited to get involved. The piece will record your voices, stories and sounds from your area, and will be displayed in a sound boat in the John Pounds Centre Café.

Come along and work with sound artist Tullis Rennie and boat builder Danny Carter to make a special piece of art for Portsea.

There are lots of ways to join in and all activities are free! Activities start in June and run through the summer. The sound boat will be in the John Pounds Centre Café from 31st August.

See overleaf for details of activities
